

WOUNDED WIFE IS NOT DISCOURAGED

Seeks Second Divorce, but Does Not Regard Marriage as Failure.

HOPES FOR TRUE LOVE

Would Get Decree Against Salt Laker, Then Choose More Wisely.

Although a former divorcee and a present applicant for another decree, Mrs. Grace Gaylord Snow, wife of A. H. Snow, wealthy Salt Lake fruit broker, does not regard marriage as a failure, according to an interview with her published in the Rocky Mountain News in Denver. Mrs. Snow still expects a desirable object for her affections to arrive and take his place in her eventful life.

While Mrs. Snow, daughter of Edward Gaylord and niece of Edwin Chase, was in a Denver hospital, suffering from a bullet wound which she said was inflicted by accident December 11, her husband, now in Mexico, was served with notice of her suit for divorce. Mrs. Snow is quoted as saying:

"My husband begged me to go back to him when I lay ill at the hospital. He was heart-broken over the accident, for, of course, my shooting was an accident, but I wouldn't go back to him for anything in the world. I'd go out and make my own living for myself and little 'Guy' first."

Her First Divorce.

Mrs. Snow, beautiful, a talented musician, and much-traveled, was divorced from her former husband, Frank Dural, aged 38, 1908. She married him after a brief courtship upon her return from Paris. He had been a floor-walker in a Sixteenth street department store.

"Courtships aren't long enough," philosophized Mrs. Snow. "I was engaged to Snow only two months. At first everything was all poetry, violets and romance, but you see he was 35, and next time I should know how to choose a husband. Widows always do, and now after all my trouble I feel that I could truly love the real man, if he were to come into my life now."

Still Has Hope.

"Widows are lonelier than other persons. But I am determined to regain my strength and health, and I feel sure that I will find a man who will be the right one. Now I can read men much better than a young and inexperienced girl. I have known all of Snow's six children, and they were not the cause of our domestic troubles in the least, though I never would marry a man again who had more than one child."

Burglar Suspect Arrested.

Said to have been acting as a "lookout" while his companion worked to break open the rear door of the Boston bar at Third West and Second South streets, N. Allen, 25 years of age, was arrested by Special Officer Leon Barker at 1:30 o'clock this morning. The other man got away. An attempt had been made to pry the door open with a jimmy. The mode of entry to James Tedesco's saloon, 327 South West Temple street, in which a safe was blown open at an early hour yesterday morning, was by the use of a jimmy on the front door.

Only One Way To Stomach Health

Eat Three Meals a Day and Let Stuart's Dyspepsia Tablets Digest Them.

The Stomach Soon Recovers After This Brief Rest.

The very worst thing you can do is to starve yourself to overcome stomach misery. Make your meals just as comprehensive as possible. Use Stuart's Dyspepsia Tablets freely for awhile and all trace of stomach trouble will be gone. Dieting is a fallacy. The intensive farming and gardening of the present day forces such quick results that our diet is lacking in the quantity of flesh-forming elements of former days. Thus we get a surplus of starch; meats

You Can Make Every Meal Feel Snug.

Are often despoiled of much of their nutritive quality; the soil is depleted of the amount of vegetable salts it ought to have. We do not obtain the natural ripened fruits and vegetables hence the stomach requires assistance to digest an overabundance of fibrous material and take care of fruit acids that Nature had no chance to convert into grape sugar. So we need more pepsin than the system can supply, more digestive, more of the natural tonic and preservative properties which ripened vegetation should give us. This deficiency is made up in Stuart's Dyspepsia Tablets and is the only way to have a stomach healthy under modern conditions.

Try just one box and you will want to go without this wonderful remedy for stomach troubles. Stuart's Dyspepsia Tablets contain an ingredient, one grain of which will digest 2000 grains of food. They are as entirely harmless because they have absolutely no effect on the system one way or another except to do just the one thing—digest food.

Every drug store sells and recommends Stuart's Dyspepsia Tablets. The price is 50 cents per box. (Advertisement.)

GOODING OUT OF THE RACE FOR SENATOR

Ex-Governor of Idaho Admits Doubt as to His Eligibility to Fill Position.

GIVES OUT STATEMENT

Declares Citizenship Cannot Be Questioned Two Years Hence; Will Try Again.

Special to The Tribune.

BOISE, Jan. 9.—Ex-Gov. Frank R. Gooding, until today a candidate for United States senator to succeed the late Senator Weldon B. Heyburn, has withdrawn from the race. In an open statement issued today to the members of the present legislature he gave as his reasons for withdrawal that his citizenship had been questioned and he did not want to continue in a race for an office when there might be a cloud as to his right to claim it.

The withdrawal of ex-Governor Gooding from the race leaves two prominent candidates, ex-Gov. James H. Brady of the south and Justice James P. Allie of the north. One of the other will be the next United States senator unless there is a dark horse, and E. H. Dewey of Nampa is strongly spoken of as a possibility.

Ex-Governor's Statement.

The statement issued by ex-Governor Gooding is as follows:

"To the members of the twelfth session of the legislature and the people of Idaho: I have been an active candidate for United States senator to fill the unexpired term of the late Senator Heyburn. A doubt as to my eligibility to fill the position, elected, has been raised, and I do not feel in justice to myself and to the Republican party, which has honored me in the past, and to the citizens of Idaho, that I have any right to continue longer as a candidate for this great office. With the senate evenly divided in the next session, I believe we must look forward to the most momentous contest between the two great parties in the senate ever known in American politics. I would not be honest with myself and the people of Idaho, so long as a doubt has been raised as to my eligibility, to continue in the fight."

Admits Doubt.

There has never been a question in my own mind as to my citizenship. I have always believed myself to have been in the position occupied by Governor Boyd of Nebraska, but after a thorough investigation there is some question raised as to that. So the duty I owe the people of Idaho is a plain and simple one—to withdraw from the senatorial contest now before the twelfth session of the Idaho legislature.

"I have lived in America forty-five years, and in Idaho for thirty-two years. I have known no other country and no other flag, and I believe I can best serve the party which has honored me twice by electing me governor of this state, by withdrawing from the contest."

If there is any doubt as to my eligibility to a seat in the United States senate at this time, that doubt will have passed away before the matter of the election of a senator comes up two years hence. I would not be a candidate for the United States senate from Idaho before the people of the state at that time.

Thanks Supporters.

I want to take this opportunity to thank all the members of the legislature, for their kindness to me. I do not believe I have an enemy among them. I know I have many supporters in that assembly. I wish to thank my friends in all parts of the state who have worked so loyally to advance my candidacy. I am not sorry I have been a candidate at this time, for it is worth being a United States senator several times over. I have the respect and esteem of the great majority of the people of Idaho.

CHILDREN BADLY BURNED.

Light Fire With Gasoline With Almost Fatal Results.

Special to The Tribune.

RICHFIELD, Jan. 9.—Two children of Mr. and Mrs. Alfred Bird of this place were badly burned today when gasoline was spilled on them while attempting to light a fire. The youngest child was sitting in a high chair and was badly burned before the children reached the scene and extinguished the flames. The older child, with clothes ablaze, ran out doors and was caught by a neighbor who rolled the little one in a ditch and put out the blaze.

Both were badly burned, but will recover. The parents were downtown at the time of the accident. It is thought that a mistake by clerks in giving gasoline instead of coal oil was responsible for the accident.

GAME PRESERVE IS PROPOSED FOR IDAHO

Chief Forester Would Stock Range With Elk, Deer and Other Game.

Special to The Tribune.

POCATELLO, Jan. 9.—Notice has been received here by United States Forester Bruce from the chief deputy forester of this division that the secretary of agriculture has authorized the grazing of 11,700 cattle and horses and 35,300 sheep on the Pocatello forest reserve for the year 1913. This is a slight reduction in the number of cattle and horses and a slight increase in the number of sheep.

The second part of the chief forester's report was a proposal to create out of a major portion of the reserve a game refuge, and stock it with elk, deer and other game. At present, deer is the only kind of game on the reserve. Old timers say that the valley occupied by Pocatello was long years ago a favorite winter feeding ground for the elk and deer. The reserve is a splendid game country, and the matter has been taken up by the local sportsmen in conjunction with Forester Bruce and the forest service and biological survey will be asked to restock this area.

Governor Offers Aid.

Will Foster Contests in Farm Products and Household Economy.

Special to The Tribune.

POCATELLO, Jan. 9.—Ex-Governor James H. Brady recently guaranteed that the movement that has been initiated all over the state by farmers' unions and the state university in having contests in farm products and household economy for the girls and boys of the state should receive his support to the extent of \$2000. Mr. Brady is the first patron of this laudable enterprise. It provides that farm boys shall plant an acre and city boys a perhaps smaller lot, and both shall receive prizes on the best products.

Girls shall be rewarded for the best work in domestic science. There has never been any permanent fund for these prizes until the governor pledged his support. An effort will also be made for legislative assistance.
